SUMMARY

Software Engineer with 3+ years of experience in web and mobile application development, specializing in React Native, Expo, Next.js, JavaScript, Typescript, Java and flutter. Passionate about building scalable, user-centric applications and solving real-world problems through technology. Known for strong analytical thinking, adaptability, and a continuous learning mindset. Eager to contribute innovative solutions, collaborate with high-performing teams, and create meaningful impact within a forward-thinking organization.

EXPERIENCE

❖ **Front-End Developer, Freelance** May 2025 — Current
Remote

Worked with Sweden-based clients as a Front-End Developer, building responsive web applications using React.js, Next.js, Node.js, JavaScript, and Typescript. Responsible for API integration, feature development, performance optimization, and delivering high-quality solutions in a remote collaborative environment.

❖ **WordPress Developer, WordPress Development Internship** Jul 2024 — Sep 2024
Onsite

Built and customised WordPress sites using Elementor, custom themes, and reusable blocks. Optimized page speed, on-page SEO, and responsive layouts for client websites.

❖ **UI / UX Designer, CognoRise Technology** Feb 2024 — Mar 2024
Remote

Designed user flows, wireframes, and high-fidelity mockups in Figma for web and mobile products. Iterated on designs based on team feedback, focusing on clarity and a consistent visual language.

❖ **UI / UX Designer, 128 Technologies** Jul 2023 — Sep 2023
Hybrid

Internship in UI/UX design. Produced wireframes and high-fidelity Figma mockups for web screens. Worked closely with developers to ensure clean handoff from design to code.

EDUCATION

❖ **Air University** Sep 2022 — Jun 2026
Islamabad, Pakistan

Bachelor of Science in Software Engineering, Software Engineering
